

# European Copper Termination Adapter Kit Instructions

## ECA-8 and ECA-12

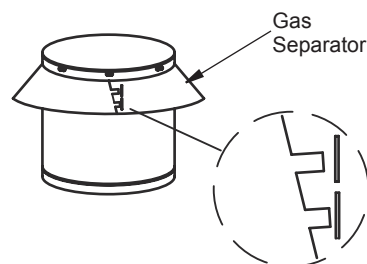

Construct chase as illustrated in Figure 1. The shortest vertical side must be at least 30" high and the minimum inside dimension must be at least 19". Top of chimney system should align with chase top. Slip adapter sleeve into inner pipe of chimney system as shown in Figure 2. Place gas separator around adapter sleeve and secure in position by inserting tabs inside slots as shown in Figure 3 (model ECA-8 shown).
